Subject: Re: mink compensation

[redacted] I want to make sure that I am clear on your losses.From the emails this is what I calculate, would you please verify that this is correct.

[redacted]

- Adult males-[redacted]
- Adult Females-[redacted]
- Kits-[redacted]
- Total loss for [redacted] 566 total mink

[redacted]

- Adult Males-[redacted]
- Adult Females-[redacted]
- Kits-[redacted]

Total mink lost on both farms combined is 2387 (this is only off by one mink from the 2388 number initially reported)

Are these figures accurate and the number of kits accurate?

Dean

Subject: mink compensation

Hi [redacted]

Thank you for speaking with me on the phone today. I am glad you and your family are well.

For the compensation this is what we need:

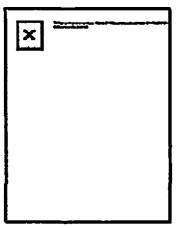

1. A very accurate breakdown of the mink lost solely to the coronavirus (starting with the lab confirmation that they were infected with it). I will need you to break the death losses into three groups: males, females and kits.
2. The government will be randomly auditing the producers that apply for and receive compensation so you must be able to confirm the losses with some proof if they happen to audit you.
3. This is not funding for other losses associated with coronavirus such as not breeding this year, culling, feed costs etc. This is just for the mink that have died from the actual virus.

Send me those numbers when you have them prepared in an email if you would.

Thank you

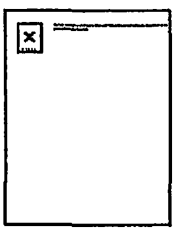

Dean

Thayne,

In talking to the Unified Command Finance team, I received the following response to your inquiry:

Yes, they'll just need to provide us with the information as to the amount and the coding for where they charged the expense.

Please let me know if you have any other questions or need any additional information.

Kris

Thayne,
I just spoke with Caitlin Cossaboom who is leading the investigation on the mink here in Utah. She indicated that they have finished with the mortality testing at [redacted] arm and that they did in fact sacrifice 60 animals valued at $100/ea for study purposes.
I am requesting the funding for [redacted] the sum of $6000.
Thank you

Subject: Limited Availability 8/31/2020 - 9/6/2020 Re: Mink Compensation

Hello,

I will have limited availability this week. I will be monitoring my emails but if this is an emergency please see below.

If this email is pertaining to the Finance Section for the Utah COVID-19 Unified Command and is an emergency, please contact Jenny Starley (jstarley@utah.gov).

If this email is regarding EMPG or payroll, please contact Hillary Goldsmith (hgoldsmith@utah.gov).

If this email is regarding payables, please contact Tiffany Snowball (tiffanysnowball@utah.gov).

If this email is regarding purchasing, please contact Patrice Thomas (pthomas@utah.gov).

If you are looking for information on EMPG, SHSP, or NSGP please see the links in my signature block.

If you are looking for information on FEMA public assistance, please visit dem.utah.gov/pa.

If you are looking for information of FEMA individual assistance, please visit dem.utah.gov/ia.

Thank you,

Hi Dean,

We'd like to have proof of purchase and proof of payment. This is a strange situation so I'm also open to suggestions.

If there's anything resembling an invoice (but maybe that doesn't include their information?) and then a copy of the cancelled check or payment confirmation (with the address blocked out).

Alternatively, a memo explaining the situation and what was done to support it may justify it. We can provide minimal info for the FINET transaction and may just need to reach back out to you if GOMB needs more info.

Thanks,

Subject: Questions on mink....
To: Bradie Jones <bradiejones@utah.gov>

Hi Bradie,

I'm trying to anticipate questions you might receive from the public and/or media when the story breaks. The first that comes to mind is whether the virus from an infected mink can be present in a fur garment. The answer is no. The processing and tanning of the pelts, as well as the time frame from pelt harvest to finished garment would not support live virus. It would be similar to the presence of the virus on surfaces (3 day lifespan?)

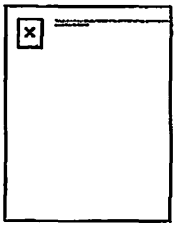

Another note, is that the mink producers have kept strict biosecure facilities for many years, (unlike some other animal ag sectors), to prevent the spread of mink-centric diseases and bacterial infections.

If I think of anything else I'll let you know. Thanks.
Michael

[redacted]

[redacted]

August 24, 2020

Logan Wilde
Utah Commissioner of Agriculture and Food
350 N Redwood Rd, SLC, UT 84116

Dear Logan Wilde and to whom it may concern:

My mink farm has been devastated by the COVID-19 virus. It began in January before the rest of the United States was affected, as all mink auctions were cancelled due to the China outbreak of the Corona Virus. We have yet to sell most of the 2019 crop.

[redacted]

The loss of my most valuable employee, the loss of mink, and the loss of income has been overwhelming.

To date we have lost 3524 mink [redacted] and 1119 [redacted] The following is a breakdown of the losses:

[redacted]

WM Males	[redacted]
WM Females	[redacted]
Mona Mink	[redacted]

801-735-7161

[redacted]. We paid top dollar in 2014 for those mink $300 per male and $200 per female.

[redacted]

The losses to my farm have been totally devastating. I have sacrificed and worked for my farm for 35 years. There is no way I can continue running it without assistance. Thank you so much for your help.

Sincerely,

[redacted]

Owner

Losses: old breeder females [redacted]
Breeder males [redacted]
Kits lost [redacted]

Total 1554 lost

Mink left [redacted]

[redacted]. The typical replacement cost is approximately 3x pelt value if you could find any to purchase. Breeder females we have valued at $100
Breeder males valued at $150
There is alot of work involved and invested to get a kit to breeder type mink without any history . The impact will be years in both production and quality

Thanks

Thanks [redacted]
I will reach out today and see if we can get a proposal in.

Dr Taylor This is [redacted] I thought that maybe hearing from another rancher and ag person talk about breeding stock and how important it is to them. Please take 5 min and watch it . I have spoken with [redacted] a few times and have got the info you have been giving him. I know you are busy so no sense in too much duplication . I would love however if there is any way we could all meet and talk face to face with each other. of course we would all mask up. and try to figure something that was fair on these mink that died from covid. Please let me know if this could be possible.? Thank you for your time and effort on our behalf in trying to help us get through this heartbreak and mess..

Memorandum

Date: 3 September 2020

To: FBAC Ranchers

From: The Coop Office (sent email)

Board and Feed Meeting– The next Board and Feed meeting will be October 7th Wednesday at 2:00 p.m. with the feed meeting scheduled for 4:00 p.m.

Feed Delivery – We plan to start skipping Sundays on September 13th. In other words, no feed will be delivered on September 13th. Everyone's feed will be doubled on Saturday September 12th. Please plan accordingly and contact the plant manager if you have concerns with taking a double on Saturday. This is to help keep our costs down during these difficult times.

Personal Protection Equipment – Dr. Lott reminds ranchers to be sure to practice good hygiene and have proper protection equipment for all help and ranchers working on mink farms. Change clothes when leaving your ranch, where face masks, change gloves between sheds, etc. If you have any questions, you can contact him or the Coop.

Mink feed – Do not feed to cattle or other ruminants! Make sure tanks are marked! FBAC uses raw inedible products; all feed is sold on an "as is basis" no warranties or guarantees.

Subject: Re: Mink Compensation

Ok I will make sure that there is a receipt of payment or something. We will also have a cancelled check issued to him.
Thanks
Dean

Hi Dean,

We'd like to have proof of purchase and proof of payment. This is a strange situation so I'm also open to suggestions.

If there's anything resembling an invoice (but maybe that doesn't include their information?) and then a copy of the cancelled check or payment confirmation (with the address blocked out).

Alternatively, a memo explaining the situation and what was done to support it may justify it. We can provide minimal info for the FINET transaction and may just need to reach back out to you if GOMB needs more info.

Thanks,

Tanner,
Please let me know what information you feel is critical to receive. I am the one who would be able to provide that for you. We have had activist groups trying to find out where and who they are so we are being very discreet but I appreciate this hand to the producer and will get you things that are essential.

Hi Debbie,

Kris Hamlet asked me to reach out to you to provide the coding for the ITI/ITA.

Please use the following:
Fund:1000
Org: 180
Unit: 1220
Approp: JBA
Function: COVI
Object: 7521

We spoke about not providing/gathering too much information about the provider of these mink. But whatever supporting documentation you *can* provide will be helpful in recouping these costs.

Thank you,
